

BioFlora Dry Crumbles® 6-6-5 + 8% Ca

Product Technical Data

BioFlora Dry Crumbles® is a dry granular fertilizer, formulated to provide an excellent source of high-quality organic nutrients for all types of plants. It is a balanced formula, which can be used for pre-planting or continued fertilization throughout the growing season for agricultural fields, Vineyards, greenhouses, orchards, turf farms, golf courses, sports fields, nurseries, turf, tree farms and flower gardens. The final product is high in natural NPK (nitrogen, phosphorus, and potassium) and secondary elements such as calcium. **BioFlora Dry Crumbles®** will enhance new growth and improve soil's beneficial microbial populations. Only the highest materials are used in the formulation: dehydrated chicken manure, bone meal and seaweed.

Guaranteed Analysis

Total Nitrogen (N).....6.00%
1.23% Ammoniacal Nitrogen
0.43% Nitrate Nitrogen
4.34% Water Insoluble Nitrogen
Available Phosphate (P2O5).....6.00%
Soluble Potash (K2O).....5.00%
Calcium (Ca).....8.00%

Derivation

Bone meal, dehydrated poultry manure, ammonium nitrate, ammonium sulfate of potash and seaweed (*Ascophyllum nodosum*).

Density

10.50 lb per gallon
1.26 kg per liter

Application Details

Apply plant food with banding applicator or broadcast spreader. It is recommended for best results to be applied with Lot 125® at a rate of 5 to 10 gallons per acre or 20 oz. – 40 oz. per 1000 sq. ft. Applications vary. Discuss your program with your BioLynceus® representative.

Storage and Handling

Non-toxic organic material. It is best to store in a cool, dry place. No special handling equipment is needed to apply this product. Gloves are recommended or wash hands after use.
