

BioFlora Seaweed Cream® Product Technical Data

BioFlora Seaweed Cream® is a cold processed, seaweed (*Ascophyllum nodosum*). The biological balance of this unique product maximizes plant growth and root development.

Guaranteed Analysis

Total Nitrogen (N).....0.10%
0.10% Water soluble Nitrogen
Soluble Potash (K₂O).....0.10%

Derivation

Kelp meal (*Ascophyllum nodosum*)

Density

BioFlora Seaweed Cream® is a cold processed, seaweed (*Ascophyllum nodosum*). The biological balance of this unique product maximizes plant growth and root development.

Product Support

Contact your BioLynceus® representative for product support, application information and current pricing. Do not allow product to freeze.

Compatibility

Shake well before use. Apply with appropriate amount of water. BioFlora Seaweed Cream® can be mixed with most pesticides and fertilizers. If in doubt, jar test. Do not use with quaternary ammonium or alcoholic solutions. Products high in calcium must be diluted 1 to 5 with water before mixing.

Storage and Handling

Store in original container in a cold dry place out of direct sunlight. In case of accidental exposure, flush with water. Product is non-hazardous. May stain clothing. Wear eye protection. Protective gloves recommended. Keep product out of sunlight.

Keep Away From Children – Not for Human Consumption
