

### Lot 125 Recommendations:

	Production History			
	1	2	3	4
Corn	2-4 gallons	4-8 gallons	8-12 gallons	12-15 gallons
Beans	1-3 gallons	3-5 gallons	5-8 gallons	8-12 gallons
Alfalfa	3-6 gallons	6-10 gallons	10-15 gallons	12-20 gallons
Dryland Wheat	1-3 gallons	2-4 gallons	3-6 gallons	4-10 gallons
Irrigated Wheat	2-4 gallons	4-8 gallons	8-12 gallons	12-15 gallons
Vegetables	3-6 gallons	6-10 gallons	10-15 gallons	15-30 gallons
Potatoes & Onions	4-8 gallons	8-12 gallons	12-15 gallons	15-30 gallons
Sugar Beets	4-8 gallons	8-12 gallons	12-15 gallons	15-30 gallons

#### Production History:

1. Near optimum. Very good production history
2. Average production expected.
3. Below average yield history.
4. Poor production history.

#### Optimal Application Timing:

- Preplant or Early if only applying once.
- 2/3 Pre or Early + 1/3 30-45 Days Later, if applying twice.
- Spoon-Feeding is optimal when practical
