

BioFlora® 0-15-15

Product Technical Data

BioFlora® 0-15-15 contains a blend of nutrients designed for ground and foliar applications. Plant metabolism and nutrient assimilation are greatly enhanced by the organic components of **BioFlora® 0-15-15**. The phosphoric acid and potassium carbonate are buffered and enhanced by ionic minerals. Seaweed helps the plant's metabolic rate and enhances the photosynthetic processes. This product is also rich in oxygen which increases microbial activity in the soil. **BioFlora® 0-15-15** is an ideally balanced formula, blending essential nutrients with natural organic substances.

Guaranteed Analysis

Total Nitrogen (N).....0.00%
Available Phosphoric Acid (P₂O₅).....15.00%
Soluble Potash (K₂O).....15.00%

Derivation

Derived from phosphoric acid, potassium carbonate and seaweed (*Ascophyllum nodosum*).

Density

11.20 lb per gallon
1.34 kg per liter

Application Details

Ground: Apply 8 to 10 gallons of concentrate per acre, pre-plant, side dress or water run.

Foliar

Apply 1 quart per acre at pre-bloom, post bloom and fruit sizing. Timing and frequency of application should be based on soil and tissue testing. Dilute 1 part product to 10 parts water.

Compatibility

Use alone or with any common-use fertilizers. Jar test if unsure of compatibility. Shake or circulate before use. May stain clothing. Protective gloves and eye protection are recommended.

**Storage and Handling**

Store in original container in a cold dry place out of direct sunlight. In case of accidental exposure, flush with water. Product is nonhazardous. May stain clothing. Wear eye protection. Protective gloves recommended.
