

BioFlora Chicken Nuggets® 3-4-2 + 6% Ca

Product Technical Data

BioFlora Chicken Nuggets® is a dry granular fertilizer, formulated to provide an excellent source of high-quality organic nutrients for all types of plants. It is a balanced formula, which can be used for pre-planting or continued fertilization throughout the growing season for agricultural, on sod farms, golf courses, sports fields, nurseries, turf, tree farms and flower gardens. Only the highest quality materials are used in the formulation: dehydrated poultry manure, bone meals and seaweed. **BioFlora Chicken Nuggets®** will enhance new growth and improve soil's beneficial microbial populations, thereby building on the plant's natural ability to develop vigorous plants.

Guaranteed Analysis

Total Nitrogen (N).....3.00%
0.17% Ammoniacal Nitrogen
0.01% Nitrate Nitrogen
2.10% Water Soluble Nitrogen
.72% Water Insoluble Nitrogen
Available Phosphate (P₂O₅).....4.00%
Soluble Potash (K₂O).....2.00%
Calcium (Ca).....6.00%

Derivation

Dehydrated poultry manure, bone meal, and seaweed (*Ascophyllum nodosum*).

Density

10.50 lb per gallon
1.26 kg per liter

Application Details

Apply plant food with banding applicator or broadcast spreader. It is recommended for best results to be applied with Lot 125® at a rate of 5 to 10 gallons per acre or 20 oz. – 40 oz. per 1000 sq. ft. Applications vary. Discuss your program with your BioLynceus® Environmental Concierge.

Storage and Handling

Non-toxic organic material. It is best to store in a cool, dry place. No special handling equipment is needed to apply this product. Gloves are recommended or wash hands after use.

**Product Support**
